# UNCERTIFIED AERODROME COURSE

## Course Overview

Our 1-day Uncertified Aerodrome Course is an abridged version of our 4-day Aerodrome Reporting Officer course. Our face-to-face courses are held regularly around Australia, alternatively we can deliver the course at your site/aerodrome upon request.

This course focuses on serviceability inspection requirements at an uncertified aerodrome, safety best-practice, and maintaining the operational requirements of this category of aerodrome (where AROs are not required to be present). 'Best practice' recommendations from industry are embedded throughout the course.

Whilst training for the operation of Uncertified Aerodromes is not mandated, this course provides valuable introductory knowledge and skills that support the operation of the aerodrome and enhances aerodrome safety for those wishing to go beyond the minimum required standards.

## Key Topics

- Types of aerodromes
- Role and responsibilities of the ARO
- Introduction to aerodrome regulation
- Aerodrome serviceability inspections
- Aerodrome infrastructure
- Markers and markings
- Aerodrome lighting
- Hazards in the workplace
- Airside driving
- Wildlife management
- Emergency management

*For site-based courses we can include additional topics at your request, time permitting.*

## Certification

This course is not Nationally Recognised. Course participants will receive a Certificate of Participation for attending.

## Fees and Payment

A formalised quote will be provided upon request.

As per our Refunds Policy (available on our website), we do not collect enrolment fees in advance where a purchase order can be supplied. For private students an enrolment fee is payable in lieu of a purchase order to secure your booking. Credit card payments can be made over the phone on or after the first day of the course. A 2% CC surcharge applies for credit card payments.
